Fortinet E-rate-Eligible Solutions for K-12 Education

School IT departments face many challenges while keeping students, faculty, and staff safe from cyberthreats. From managing an ever-increasing number of devices connecting to the network, complying with regulations like Family Educational Rights and Privacy Act (FERPA) and Children's Internet Protection Act (CIPA), fending off sophisticated threat actors, and meeting schools' exploding bandwidth demands, the to-do list continues to grow while budgets and resources remain limited.

One resource to help with these demands is the Federal Communications Commission E-rate program. E-rate is designed to give public schools and libraries cost-effective access to the technology they need to bolster their network infrastructures and prepare for future educational needs.

The E-rate program offers a tremendous opportunity for schools and libraries to purchase security and networking technology for free or at a reduced cost. Fortinet offers many E-rate-eligible solutions and we are happy to help you navigate the process and answer any questions.

The Fortinet Security Fabric architecture integrates Fortinet and Fabric-Ready Partner products to enable easier management, better protection, and automation of time-consuming tasks. As part of the Fortinet Security Fabric ecosystem, Fabric-Ready Partner solutions in K-12 environments can be integrated with the Fortinet Security Fabric. School districts can leverage existing investments while still gaining the time savings and stronger security of an integrated architecture. Fortinet's proven security and networking solutions secure educational institutions of all sizes around the globe.

In addition to E-rate solutions, Fortinet offers a broad portfolio of high-performance secure networking solutions, including network access control, phones and VoIP solutions, physical security solutions, and email security technology.

The Fortinet Security Fabric:

- Reduces complexity with end-to-end network and wireless access security
- Saves IT resources with centralized security management
- Provides comprehensive security across threat vectors

For more information, visit our website or contact us. You can check product eligibility through the E-rate website.

E-rate-Eligible Security Fabric Solution

- FortiGate Firewall solutions
- FortiAP wireless access points
- FortSwitch network switches
- FortiProxy solutions
